**DETAILED ACTION**

1. With respect to Applicant's argument, filed 9/7/2006, regarding the flexible printed circuit board of and the printed circuit board of Stopperan being directly fixed and connected to each other, without any adhesive, the Examiner notes that the limitation, "without any adhesive," is not claimed in claims 1, 11 or 22. Higdon et al. as modified by Stopperan, meets the limitations of the independent claim 1,11 & 22, and dependent claims of the instant application, as Higdon et al. as modified by Stopperan, teaches two printed circuit board (75) with flexible jumpers, fixed to and electrically connected to a printed circuit board (100) by means of hot pressure welding (see, col. 4, lines 66-68, col. 5, lines 1-9 of Stopperan). Thus, the amendment filed, 9/7/2006, does not put the instant application in condition for allowance.
